JAIL MINISTRY:

Have you ever thought of visiting some of the most marginalized in our society? "What you do to the least, you do to me". The Ottawa County Jail and the Juvenile Detention Center here provide us with the opportunity to make a difference in the lives of young children on up. All one needs is a listening ear and an open

heart to see that Christ is everywhere and to be present to those who are imprisoned.

To Your Health

By Martha Kuyten, Parish Nurse

Eat at the same time every day!

Often times when you push yourself to go too long in between meals you start to feel the negative symptoms of low blood sugar. When your blood sugar begins to decline from lack of food, you start to feel a range of volatile emotions including sadness, anger, apathy and extreme fatigue. When coping with the challenges of a mental health issue, such extreme swings in blood sugar can often make existing symptoms feel even worse. Staying consistent with your meal times and making sure you do not push past extreme hunger will prevent your blood sugar from dropping too low. <http://www.rtor.org/>

A su salud

Por Martha Kuyten, Enfermera de la Parroquia

¡Coma al mismo tiempo todos los días!

Muchas veces cuando deja pasar mucho tiempo entre las comidas se empiezan a sentir los síntomas negativos que produce el tener el azúcar baja en la sangre. Cuando el azúcar en su sangre empieza a declinar por falta de comida, empieza a sentir muchas emociones incluyendo a la tristeza, el enojo, la apatía y la fatiga extrema. Cuando se lucha con los retos de un problema mental, estos cambios extremos en el azúcar de la sangre pueden muchas veces hacer que los síntomas que existen se sientan peor. El ser consistente con el horario de comidas y asegurándose que no tenga un hambre extrema preverá que su azúcar de la sangre baje demasiado.
